Technical Supervision**

Amnon Margalit

Motorola Solutions Field Service Manager

Quality Manager in Solutions and Service Division

Member of the Board of the Israeli Society for Quality

Member of the Ethics Committee of the Israeli Society for Quality

The Israel Society for Quality (ISQ), one of the world's leading quality societies, was established in 1973 in order to promote the values of quality in Israel.

It is a non-profit organization of quality professionals including engineers, physicians, educators and managers drawn from the industrial, business, public and defense sectors. Furthermore, many of the Israel leading companies are members of our Society.

Vision

To be the home of the quality and excellence movement in Israel for promoting individual and organizational excellence.

Quality – Strategy for a Better Life

The future holds tremendous promise in terms of quality. Life expectancy is on the rise and modern technology coupled with increased productivity enables man to fulfill human needs better than before

People have become increasingly aware of the quality of life – the environment, personal conduct and the quality of products, systems and services.

ISQ has seized this opportunity to define goals and strategy for them.

ISQ Strategic Goals

- Promote the quality profession and professionals and increase their influence in all aspects of life.
- Create opportunities for learning quality.
- Create added value for Society members by adding services and increasing their participation and involvement.
- Support achieving, establishing and promoting the reputation of Israeli products as being of world class excellence.
- Establish cooperation for promoting quality in Israel and world wide.
- Advance quality and excellence leadership in Israel.
- Promote quality awareness among the younger generation.
- Promote quality values in all aspects of life in Israel.

We are in the process of dealing with the Israeli government, which, we hope, will turn the quality activities into a recognized profession.

DREAMS
